

Growfit Sports Academy NPC

In partnership with North Crest Primary School · Greater Durban

SPONSOR MEDIA KIT · SEASON 2027

Where Your Brand Is Seen

A map of where a Growfit partner's name goes during a season: on match days, at tournaments and camps, on the way to school, online, and in front of other businesses that back us. It also covers how we measure and report it.

Up to ~355,000

Impressions a year with our new content programme (target). About 138,000 today.

~18,300

People who see the brand in person at matches, tournaments, camps and events

108 clubs

In our local football association, the network our matches and Youth Cup reach

1 How your brand travels

A logo on a youth football kit isn't seen once. It goes wherever the players, their families and our events go, and every week it reaches the same local households again. That repetition is what builds brand recall in a community.

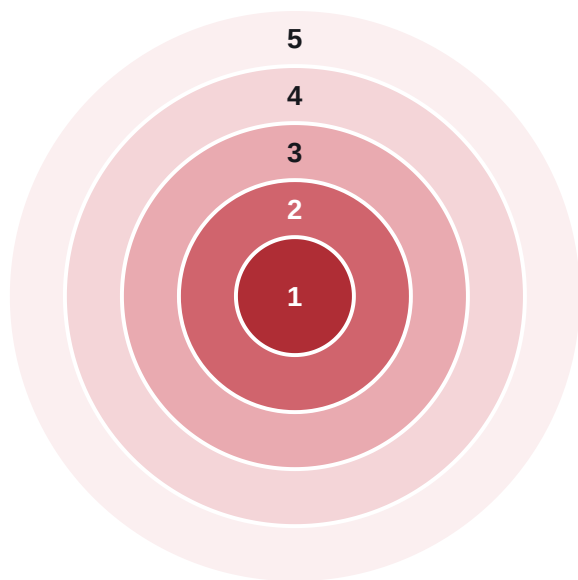

Why it works for local brands

- **The same audience, every week.** League football runs about 9 months a year, so families see your brand at every match, training session and school run, not just once.
- **Goodwill attaches to your name.** Parents notice who supports their children, and many are deciding where their household shops.
- **The business network.** Our parents include business owners and employees of Durban companies, and our partners meet each other (Section 7).
- **It's measurable.** We count attendance, track social reach and give every partner a trackable family offer (Section 8).

2 The exposure map: who sees your brand

Five circles of reach, from the players wearing your name to the wider public. The inner circles see it most often. The outer circles are the largest.

#	CIRCLE	REACH / SEASON
1	Players & staff: wear your brand, ~3–5 days a week	~70
2	Families: parents, siblings, grandparents at matches, on WhatsApp, at home	~200
3	Match-day community: opponent players, coaches and parents, referees, spectators at shared GDFL venues	~1,500
4	Events & partners: Youth Cup clubs and families, camp families, the North Crest Primary school community (~735 learners), partner clubs, scouts, the corporate 5-a-side, the Gauteng tour	~5,500
5	Wider public & online: everyday wear in public, social media, parents' shares, local media	tens of thousands

Reach counts different people. Impressions (Section 4) count every time your brand is seen, including repeat views.

Who is in the audience

AUDIENCE	WHY THEY MATTER TO A SPONSOR
Parents & guardians (mostly 30–55)	Make the household's spending decisions: food, clothing, transport, services, banking. They see your brand weekly, from the touchline.
Local business owners	Parents who run businesses, our business directory members and fellow sponsors. A ready-made B2B network.
Football community	Coaches, club officials and families from the 108 clubs and 5,600 junior players in the Greater Durban LFA.
Schools & scouts	Teachers, sports coordinators and talent scouts at tournaments and showcase events.
Community leaders & media	Ward councillors, municipal and provincial sport officials, community radio and local papers at our events.

3 Where your logo goes

Placement decides how often your brand is seen and photographed. The **shirt front** appears in almost every photo. **Tracksuits and kit bags** are worn in public every day, not just on match days.

Front

Back

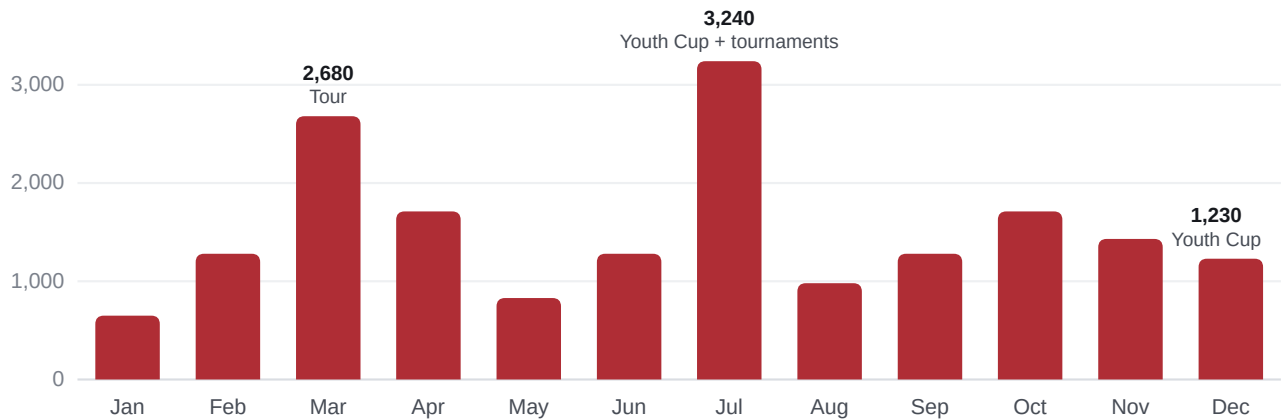

#	POSITION	SEEN
1	Shirt front: the main sponsor	Every match, every photo, every video
2	Sleeve	Matches, close-up photos
3	Back, above the number	Matches, team photos from behind, video
4	Back, lower	Matches

BEYOND THE MATCH SHIRT	WHERE IT'S SEEN	HOW OFTEN
Tracksuit (chest & back)	Travel to matches, school, taxis, shops, the Gauteng tour	3–5 days a week
Training top	Wednesday & Friday training at public fields, camps	2+ days a week
Kit bag	Carried to school and training	Daily
Banners & flags	Home matches, Youth Cup, camps, friendlies	Every home event
Medals, certificates, programme	Taken home and displayed: ~720 certificates a year from the Youth Cup alone	Kept for years
Digital	Match posts, results, highlight reels, parents' WhatsApp shares	Weekly

Logo placements follow league and tournament kit rules. Children's images are used only with parent/guardian consent and never with full names.

4 A season of exposure

In-person sightings each month: people who see the brand at matches, training, tournaments, camps, friendlies and events. Peaks come with the Gauteng tour (March), the winter holidays (July: Youth Cup, camp and outside tournaments) and the summer Youth Cup (December).

Estimated in-person sightings per month, season total about 18,300. Static chart: the figures are in the table below.

WHERE YOUR BRAND IS SEEN	BASIS (ESTIMATE)	IN PERSON / SEASON
League matches	12+ matches per division × 3 divisions (U12, U15, U17) ≈ 36 × ~80 people	2,880
Training (Wed & Fri)	3 squads × 2 sessions × ~40 weeks × ~15 passers-by and parents	3,800
Growfit Youth Cup	2 tournaments × ~1,100 people, all-day	2,200
Outside tournaments	~3 per division a year: 8 regional × ~600 people, plus the Gauteng Tour (~2,000)	6,800
Challenge Series friendlies	~10 fixture days × ~150 people	1,500
Fundraising events	Quiz/braai nights, corporate 5-a-side cup (company staff)	600
Holiday camps	4 camps × ~130 children and parents	520
In person, total		~18,300
Everyday wear	60 players × 3 public outings a week × 40 weeks × ~10 people	~72,000
Digital	~120 posts × ~400 average reach [replace with real page insights]	~48,000
Estimated brand impressions per season		~138,000

5 Online and at North Crest: the multipliers

The Growfit content programme

Partner funding will pay for a **part-time social media & content manager**, so our channels are run professionally every week instead of by volunteers when they have time. For sponsors, this is the biggest change: your brand appears in a steady flow of content that families follow, comment on and share.

CHANNEL	VOLUNTEER POSTING (TODAY)	WITH CONTENT MANAGER (YEAR-1 TARGET)
Posts per season	~120	~400 (incl. stories, reels, WhatsApp channel)
Partner Spotlight content	Occasional	Monthly, for every partner
Highlight video	Rare	Weekly (match camera)
Combined followers	[today]	[e.g. 5,000]
Digital impressions per season	~48,000	~250,000

Platforms: Facebook, Instagram, TikTok, a WhatsApp channel for families, and YouTube for highlights. Targets are not guarantees. Actual figures go in every quarterly report. Children appear only with consent and never with full names.

North Crest Primary School

Growfit works in partnership with **North Crest Primary School** in Redhill / Park Hill, Durban North: about **735 learners**, their families and staff **[confirm figures and the scope of the partnership]**. Subject to the school's approval, partners can be recognised in school newsletters and notices, at sports days and football programmes, and at prize-givings. That's about **~15,000 impressions a year** in a community of local households.

Only family-appropriate brands appear in school channels. Under gambling-advertising rules, no betting branding appears at or through the school.

The full picture

CHANNEL	IMPRESSIONS / YEAR
In person: matches, training, tournaments, camps, tour, events	~18,300
Everyday wear: tracksuits and bags in public	~72,000
North Crest Primary school community	~15,000
Digital, with the content programme (target)	~250,000
Total (target)	~355,000

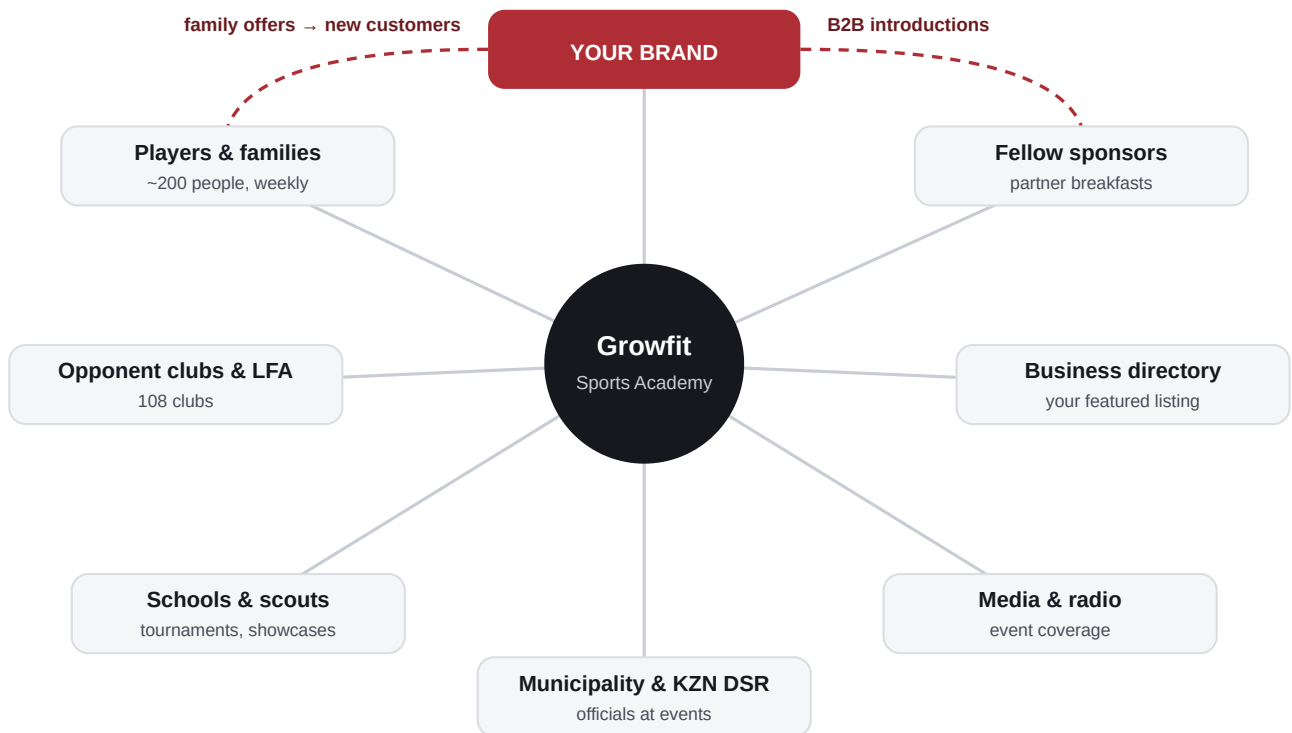

6 Reach by package

PACKAGE	WHERE THE BRAND APPEARS	EST. IMPRESSIONS / SEASON
Headline Academy Partner	Shirt front on all kits, all communications, Youth Cup naming, every channel	~138,000 today · up to ~355,000
Digital & Content Partner	Every post and video end-card, monthly partner content. Funds our content manager	up to ~250,000
Team Wear Partner	Tracksuits, training tops, kit bags: everyday wear, training, travel	~85,000
Kit Partner	Match kit sleeve/back: league, friendlies, tournaments, match photos	~60,000
Squad Partner (one age group)	That squad's bibs, banner and posts	~20,000
Youth Cup Partner (per tournament)	Banners, medals ribbons, certificates, programme, tournament posts	~1,100 on the day + ~5,000 online
Hydration Partner	Water points and banners at the Youth Cup, camps and home matches	~4,000 in person
Business directory (featured)	Printed (200 copies) and digital directory shared with families and partner clubs	~200 households + shares

Package prices are in the Sponsorship pack. Estimates follow the method on the last page and will be replaced by measured figures after the first season.

7 The Growfit partner network

Sponsoring Growfit connects your brand to families, clubs, schools, other businesses and local government. The red dashed lines show what partners get directly.

8 What every partner gets beyond the logo

Growfit family offers

Give our ~150 families a discount or offer with a **unique code or QR** (e.g. "GROWFIT10"). We share it on match days and in parent groups, and you can count every customer it brings in.

Partner breakfasts

Twice a year, all partners meet the academy and **each other**: business owners, corporate CSI teams and suppliers in one room. Many sponsorships pay off through these introductions.

Featured directory listing

Free featured listing in the Growfit Business Directory, printed and shared digitally with all families and partner clubs.

Cross-promotion

Partners appear together at the Youth Cup and in posts. For example, the hydration partner's water point sits next to the kit partner's banner.

Staff engagement

Volunteering days at camps and the Youth Cup, a coaching clinic for staff's children, and a team in the corporate 5-a-side cup.

B-BBEE & reporting

A socio-economic development beneficiary letter, proof of contribution and a quarterly report with photos and numbers.

9 How we measure and report

WE COUNT	HOW
Attendance	Team sheets plus a spectator count by volunteers at every home match and event. Gate registration at the Youth Cup and camps.
Logo appearances	A photo log: every match, event and post where your brand appears.
Digital reach	Page insights (reach, views, shares) for every post that shows your brand. Highlight video views.
Response	QR scans from banners and redemptions of your family-offer code.
Media	Radio mentions and newspaper articles naming your brand, with clippings.

10 Method & assumptions

We'd rather give a sponsor honest estimates than impressive ones. These figures are planning estimates for a full season, with about 60 players in 3–4 squads. They will be replaced by measured figures (Section 9) after the first season with a partner.

ITEM	ASSUMPTION
League matches	A minimum of 12 league matches per division (U12, U15, U17), so ~36 a season. ~80 people see the kit per match: two squads (~30), parents of both teams (~30), officials, and spectators at shared venues.
Training	3 squads, 2 sessions a week, ~40 weeks, ~15 parents and passers-by per session at public fields.
Youth Cup	24 teams, ~360 players, ~700 parents and spectators, plus officials and vendors: ~1,100 per tournament, twice a year.
Outside tournaments	~3 per division a year (~9). Regional tournaments ~600 people each (teams, parents, organisers). The Gauteng Tour ~2,000.
Friendlies · events · camps	~10 friendly days × ~150; quiz/braai and corporate 5-a-side ~600 in total; 4 camps × ~130 children and parents.
Everyday wear	Tracksuits and kit bags worn in public ~3 times a week for ~40 weeks, seen by ~10 people each time. This is the most uncertain figure, so it is rounded down.
Digital	~120 posts a season × ~400 average reach. [Replace with real figures from page insights.]
Football community	The Greater Durban LFA has 108 clubs, 7,500+ amateur players and 5,600 junior players (2025).

An impression is one person seeing the brand once, so one person can count many times. Reach (Section 2) counts different people. Sources: GDLFA figures as reported by Berea Mail and Sportswire (2025). All other figures are Growfit's own estimates.

Let's talk about your brand on our kit. Contact **[name]** on **[phone]** or **[email]** . We'll match a package to where your customers are.
